VI International Natural Sciences Tournament

November 11-16, 2015, Saint Petersburg State University

Russian Federation, Saint Petersburg, Peterhof

Dear colleagues!

Every year bright young scientists gather at the International Natural Sciences Tournament every year collects bright young scientists to generate new scientific ideas and stand up for their own ideas during dynamic scientific polemics. The Tournament helps to form collaborations between participants, scientific experts and industry.

International Natural Sciences Tournament (INST) is a team competition for current undergraduate, Master's students, and students graduating in 2015. Students should be studying one of the following specializations: Chemistry, Physics, Biology, Medicine, Pharmaceuticals or Engineering. The main goal of the competition is teaching students how to apply their knowledge to solve current practical scientific and industrial problems.

The Tournament attracts new participants from different countries for every year since 2010. In 2014 we received participants and guests from India, Indonesia, Iran, Sweden, Macedonia, Belarus and Russia. We will be glad if your university can gather a team of 3 to 5 people to participate in the Tournament. The language of the tournament is English.

The Tournament consists of extramural (1st) and intramural (2nd) rounds. To participate in the intramural round we need to perform selection. We ask teams which need visa to come to Saint-Petersburg to send solutions of extramural round problems until **June 25, 2015**

The extramural round problems are available on the website www.scitourn.com. Please, register your team online on the website: www.scitourn.com/account

If you have any questions, do not hesitate to contact INST International league coordinator: Kirill VOLOSNIKOV, participants@scitourn.com, tel. and What's App +79111232549, skype: scitourn, <https://www.facebook.com/scitourn>.
