Among the teams that have sent their solutions at least one team from each country passes to the intramural round. The other teams will compete in a general competition.

The results of the extramural round will be announced on July 15

The result of extramural round for each team will be either "team accepted" or "solutions sent back for revision".

The second wave of application reception for the extramural round will be held up to September 20, 2015. The results of the second wave of team selection will be announced October 1, 2015

Attention teams from countries that are not participating in the first wave of team selection! We ask you to send your solutions in advance, as soon as they are ready. The Organizing Committee will decide whether to accept into the intermural round teams from countries that have not previously participated in the tournament within a week after receiving the teams' solutions. This will allow the teams to receive their visa invitations in time.

Best regards,
